

Psychic SkillSet eBook

BY SUSAN K. EDWARDS

Psychometry

The art of divining facts concerning an object, or a person associated with it, by contact with or proximity to the object. Basically, picking up the vibrational signatures from objects or persons.

Claircognizance

Claircognizance is the intuitive ability of clear knowing, divine knowing, or insight.

Claircognizant information often comes in like a light bulb illuminating suddenly within your head, or a sudden bright and clear idea.

Clairsentience

The ability to clearly feel energy around you. Clairsentience loosely translated means “clear-feeling” and is perhaps the most down-to-earth of all the intuitive gifts.

Clairaudience

The power to hear sounds said to exist beyond the reach of ordinary experience or capacity, as the voices of the dead.

Clairvoyance

Clairvoyance means “clear seeing,” which refers to psychic seeing. If you are a clairvoyant psychic, you’ve probably experienced the gift manifesting with visions of spirits or other non-physical entities and things.

Animal Communication

The ability to connect and communicate with the animal kingdom.

Mediumship

The ability to see and or communicate with the dead and other non-physical beings.

Empath or Highly Sensitive Person (HSP)

HSPs are a subset of the population who are high in a personality trait known as sensory-processing sensitivity, or SPS. Those with high levels of SPS display increased emotional sensitivity, stronger reactivity to both external and internal stimuli—pain, hunger, light, and noise—and a complex inner life.

A Little Bit Of All!

Many of us have one or multiple gifts. We are all unique, so don't feel like you have to fit into a single mold!

Want more?

If you want training on how to identify and manage your gifts, consider my course, "How to Make Money Doing Psychic Readings."
